

# MOST PEOPLE AGREE:

## REPEAL PROHIBITION NOW

Legalise, decriminalise or medicalise? There's one thing almost everyone can agree on: the current law has failed and should be repealed. The 2020 referendum was really close, and not a mandate for inaction. Polls have shown 40% of the "nope" vote actually supported decriminalisation. So let's do it!

### STOP THE ARRESTS

Giving police 'discretion' failed. They are still chasing and arresting responsible cannabis consumers, and still going after Maori. It isn't fair. Just stop it!

### HEAL THE SICK

Patients were promised safe and affordable access to medicinal cannabis. Let them grow their own, protect the green fairies and subsidise cannabis meds.

### FREE THE PRISONERS

Release all cannabis "POWs", and expunge the criminal records that hold people back. We must undo the harms caused by prohibition.
